

# Rear Stand

## Instruction Manual

### DISCLAIMER:

Read and follow instructions. Failure to follow instructions could result in serious injury and damage to your bike. Driven Racing and its Dealers cannot assume any responsibility for damages caused by improper installation or unintended use.

**1. Remove box content. Make sure all parts pictured are included.**

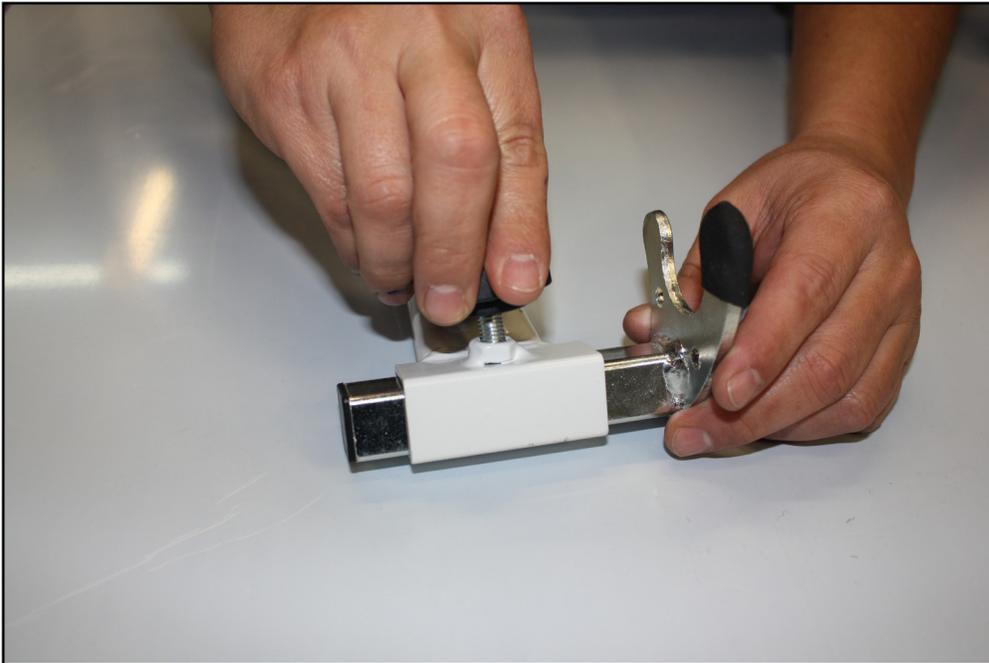

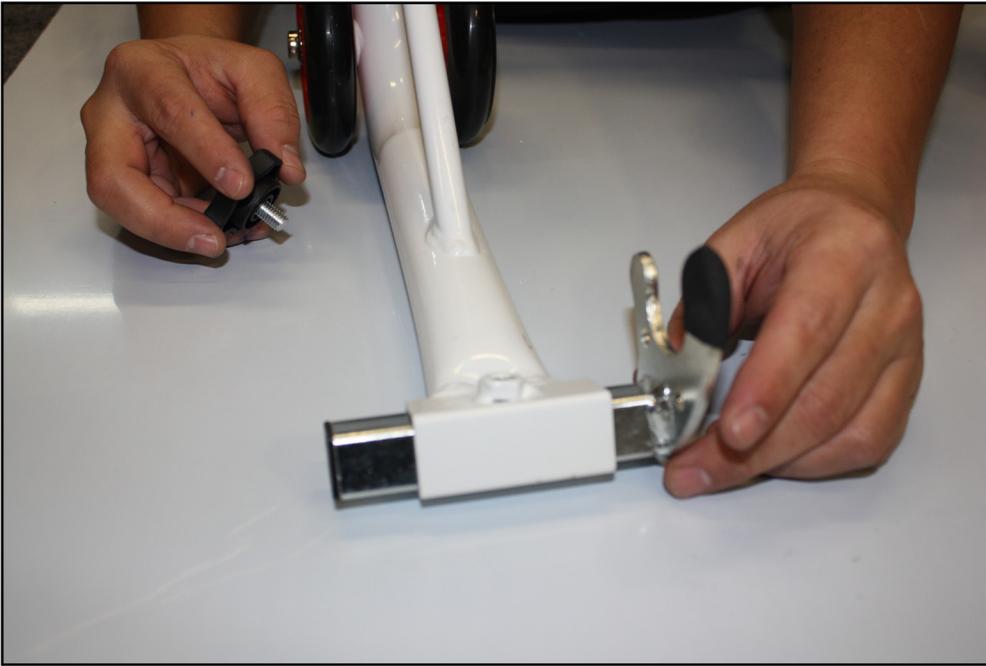

**2. Put Blue Loctite on the screw**

**3. Install handle to stand using the 4 screws. 2 screws on each side of the handle**

#### 4. Insert the V shape lifters and put the star knob to lock it

\*It is recommended to have 2 people to lift a bike. Have 1 person hold the bike straight, the other lining up the lifters with spool. Lower the stand out and lift the bike.

**Warning:**

1. Do not sit on bike while on stand
2. Do not run the engine while the bike is on the stand.
3. Do not run the gears while the bike is on the stand

**DISCLAIMER:**

Read and follow instructions. Failure to follow instructions could result in serious injury and damage to your bike. Driven Racing and its Dealers cannot assume any responsibility for damages caused by improper installation or unintended use.
